## PROJECTS

### **FORMATIM:**

Link: <https://www.formatim.ma/>

Tech Stack: HTML, CSS, JavaScript

Description: Formatim is a business and enterprise support hub that offers a comprehensive suite of services tailored for startups, freelancers, and established companies.

### **HTTC:**

Link: <https://httc.ma/>

Tech Stack: HTML, CSS, JavaScript

Description: HTTC is a general construction company that guarantees the delivery of your project—fully completed, technically sound, and functionally ready—at the best quality-to-price ratio.

We support you from the moment your needs are expressed all the way through to the successful completion of your construction projects.

### **BITDYNE:**

Link: <https://bitdyne.com/>

Tech Stack: HTML, CSS, JavaScript

Description: BitDyne is a Moroccan IT services company specializing in digital innovation and the placement of skilled freelance consultants. Initially a software integrator, BitDyne has evolved to focus on connecting expert IT freelancers with B2B clients, offering flexible, high-quality consulting solutions
